

File system files making guide

一、Introduction

Data (D:) > github > DS10 > tool > FileSystem_tool > 4+4 fs tools	
名称	修改日期
backup	2026/5/13 11:49
Command Prompt	2025/3/11 17:22
customer_back_fs.bin	2026/5/13 12:14
customer_backup_fs.bin	2026/5/13 11:58
customer_fs.bin	2026/5/13 11:57
desktop.ini	2025/3/11 17:22
FileSystem tool instructions.docx	2025/3/11 17:22
makefsbin.bat	2025/12/19 15:42
mkifs-v2.exe	2025/3/11 17:22
readme.txt	2025/3/11 17:22

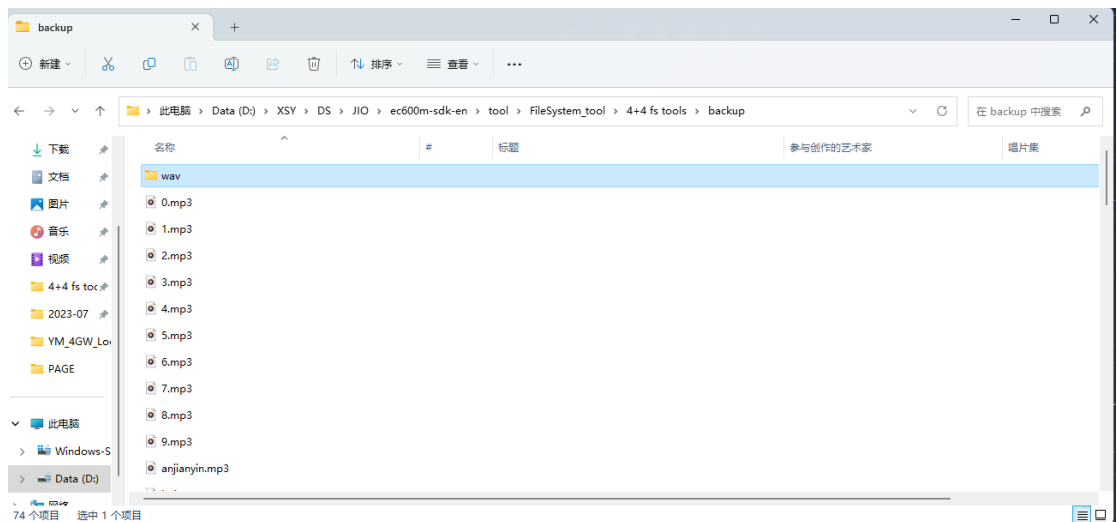

- **backup**-The folder contains the directory of system/audio files, and store import files and export files from customer_fs.bin under this folder
For example, if you want to pre create some configuration files and certificates into the file system You can create folders in the backup and place these files in a new folder

Data (D:) > github > DS10 > tool > FileSystem_tool > 4+4 fs tools > backup			
名称	#	标题	参与创作的艺术
CertParam			
ActiveFail.mp3			
ActiveSucess.mp3			
beep.mp3			
ChargFull.mp3			
Charging.mp3			
ChargOur.mp3			

- customer_fs.bin is input/output FS file that used by this tool
(customer_backup_fs.bin – external flash file system, if making external file system, need manually rename)
- makefsbin.bat – batch file

二、FS file generate

1. Place the system/audio files to be imported in the backup folder

(1) run makesfsbin.bat

```

C:\Windows\system32\cmd.e  X  +  v

Select the size of the file
=====

1: 2M
2: 8M
3: custom size
Enter the corresponding number: |

```

(2) Select the internal or external flash file system that you want to make (option 3 not support)

```

C:\Windows\system32\cmd.e  X  +  v

Select the size of the file
=====

1: 2M
2: 8M
3: custom size
Enter the corresponding number: 1

1: Make FS files
2: Export FS files
0: exit
Enter the corresponding number: |

```

(3) After that, we choose the 1st option, make the FS file, and generate the customer _fs.bin is the FS file that is produced

```
C:\Windows\system32\cmd.e X + v
[FS] 1      31148 shiliu.wav
[FS] 1      33452 shiqi.wav
[FS] 1      29996 shisan.wav
[FS] 1      27692 shisi.wav
[FS] 1      27692 shiwu.wav
[FS] 1      25388 shiyi.wav
[FS] 1      29996 shoukuan.wav
[FS] 1      15020 sishi.wav

If select Option 1, A 2MB customer_fs. bin file will be generated. This file can be used on both DS10-S-CN and DS10-S-EU devices. Neither of these devices has a display screen

We need to place the generated customer_fs. bin file in the following directory

Data (D:) > github > DS10 > demo > ql-config > config		
名称	修改日期	类型
EC600MCN_LE	2026/5/9 13:14	文件夹
EC600MEU_LA	2026/5/9 13:14	文件夹
EG800AKCN_91LC	2026/5/13 11:58	文件夹
EG800AKEU_11LC	2026/5/9 13:14	文件夹
EXT_FLASH	2026/1/11 15:45	文件夹
APP_MODE.ini	2026/5/13 15:42	INI 文件
BT_MODE.ini	2026/5/13 15:42	INI 文件
build.bat	2025/9/1 10:30	Windows 批处理文件

EXT_FLASH.ini	2026/5/13 15:42	INI 文件
FLASH_SIZE.ini	2026/5/13 15:42	INI 文件
func.txt	2025/12/15 15:46	TXT 文件
project_remove.bat	2025/10/1 10:30	批处理文件

DS10-S-CN

DS10-S-EU

If select Option 2, A 8MB customer_fs. bin file will be generated. This file can be used on both DS10-D-CN and DS10-D-EU devices. These two devices have display screens

We need to place the generated customer_fs. bin file in the following directory

Data (D:) > github > DS10 > demo > ql-config > config		
名称	修改日期	类型
EC600MCN_LE	2026/5/9 13:14	文件夹
EC600MEU_LA	2026/5/9 13:14	文件夹
EG800AKCN_91LC	2026/5/13 11:58	文件夹
EG800AKEU_11LC	2026/5/9 13:14	文件夹
EXT_FLASH	2026/1/11 15:45	文件夹
APP_MODE.ini	2026/5/13 15:42	INI 文件
BT_MODE.ini	2026/5/13 15:42	INI 文件
build.bat	2025/9/1 10:30	Windows 批处理文件
CHIP_PLAT.ini	2026/5/13 15:42	INI 文件
EXT_FLASH.ini	2026/5/13 15:42	INI 文件
FLASH_SIZE.ini	2026/5/13 15:42	INI 文件
func.txt	2025/12/15 15:46	TXT 文件

DS10-D-CN

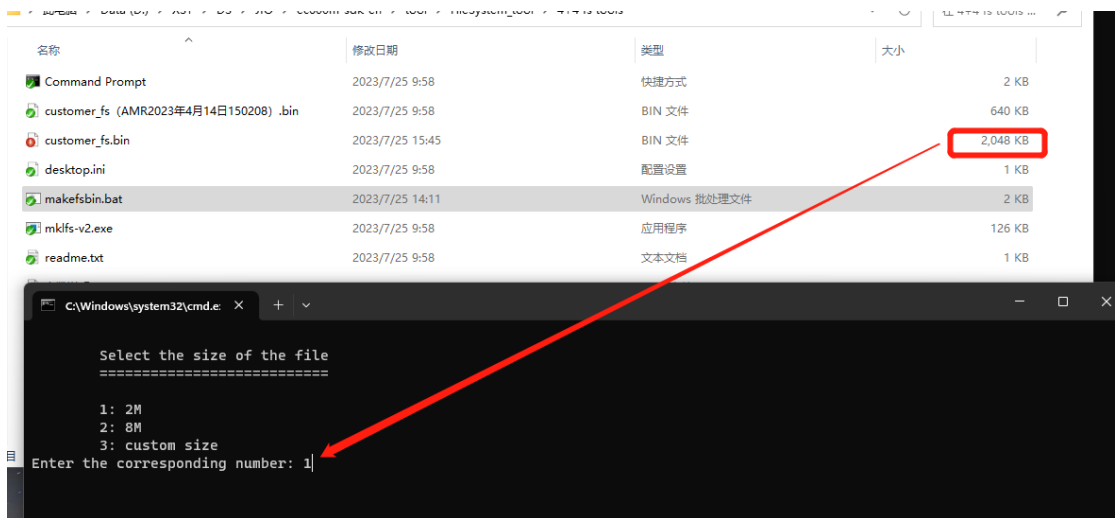

DS10-D-EU

三、Export files from the file system

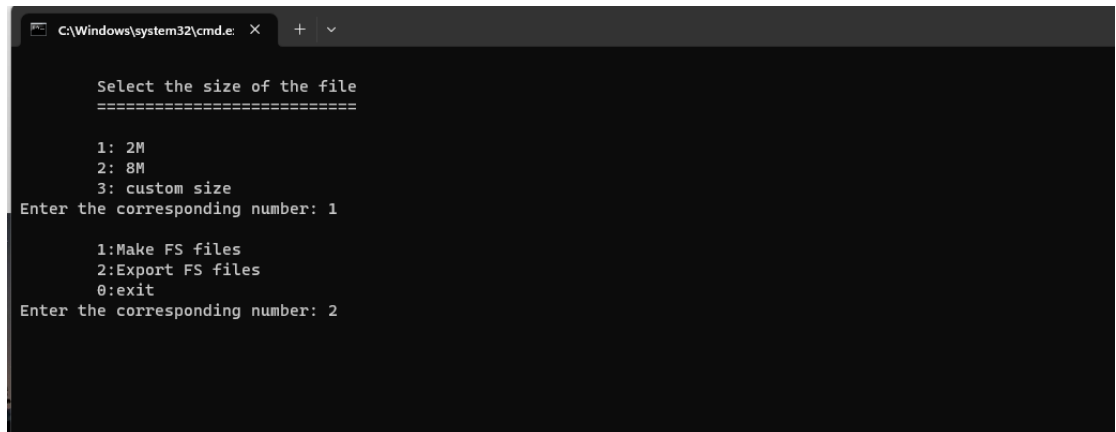

- 1、Change the file name of the FS file to be exported to customer_fs.bin

名称	修改日期	类型	大小
Command Prompt	2023/7/25 9:58	快捷方式	2 KB
customer_fs (AMR2023年4月14日150208) .bin	2023/7/25 9:58	BIN 文件	640 KB
customer_fs.bin	2023/7/25 15:45	BIN 文件	2,048 KB
desktop.ini	2023/7/25 9:58	配置设置	1 KB
makefsbin.bat	2023/7/25 14:11	Windows 批处理文件	2 KB
mkifs-v2.exe	2023/7/25 9:58	应用程序	126 KB
readme.txt	2023/7/25 9:58	文本文档	1 KB
参数说明.png	2023/7/25 9:58	PNG 文件	56 KB

- Run the script and select or enter "customer_fs.bin" file size (we choose 1 on demo)

- After confirmation, select option 2 to export the file

- The exported file is stored in the backup folder
